

## 20b1num0334 Г.Ариунжаргал

Лабораторийн ажил 13

1. Тoo харуулсан р элемент болон товчлуур үүсгэ. Товчлуур дээр дарах болгонд тоог нэмэгдүүл.

```
<body>
<p id="result"></p>
<button onclick="number()">click</button>

<script type="text/javascript">
    var i = 0
    function number(){
        i++;

        document.getElementById("result").innerHTML = i;
    }

</script>
```

18  
click

2. ‘Hello World’ текстийг дэлгэцэнд гарга. Түүний үсгийн фонтын хэмжээг өөрчлөх input элемент болон товчлуур үүсгэ. Товчлуурыг дарахад input элементээс утгыг авч текстийн үсгийн фонтын хэмжээг соль.

```
    }
    function change(){
        var input = document.getElementById("output").value;

        document.getElementById("result").innerHTML = input;
    }
    document.body.setAttribute("style","font-size:" + "25px")
```

3. Хэрэглэгчээс мөр, баганын тоог авч хүснэгт үүсгэ. Хүснэгтийн нүдийг 1-ээс эхлэн дугаараар дүүргэ.

```

<title>15-5</title>
</head>
<style type="text/css">
    tr , td {
        border: 1px solid black;
    }
</style>
<body>
    <table id="table" border="1">
        </table>
    <button onclick="myfunction()">Create table</button>
    <script type="text/javascript">
        var k = 1;
        function myfunction(){
            var a = window.prompt("enter row number");
            var b = window.prompt("enter column number");
            for (var i = 0; i < a ; i++){
                var table = document.getElementById('table').insertRow(i);
                for (var j = 0; j < b; j++){
                    var column = table.insertCell(j);
                    column.innerHTML = k;
                    k+=1;
                }
            }
        }
    </script>

```

---

1	2	3	4	5	6
7	8	9	10	11	12
13	14	15	16	17	18
19	20	21	22	23	24
25	26	27	28	29	30

Create table

#### 4. Дараах формыг хийж ажиллуул

1st Number :

2nd Number:

The Result Is :

120

```

<span>1st Number:</span>
<input type="number" name="name" id="first"> <br><br>
<span>2nd Number:</span>
<input type="number" name="name" id="second"><br><br>
<button onclick="multiply()">Multiply</button>
<button onclick="divide()">Divide</button> <br><br>
The result is:<span id="result"></span>
<script type="text/javascript">

function multiply(){
    var a = document.getElementById("first").value;
    var b = document.getElementById("second").value;
    var mul =(a*b);
    document.getElementById("result").innerHTML = mul;
}

function divide()
{
    a = document.getElementById("first").value;
    b = document.getElementById("second").value;
    var div = a/b;
    document.getElementById("result").innerHTML = div;
}

```

5. Дараах формыг хийж ажлуул.

```

<body>
    <table border="1">
        <tr>
            <td>Name</td>
            <td>Town</td>
        </tr>
        <tr>
            <td>Eve</td>
            <td>Sofia</td>
        </tr>
        <tr>
            <td>Nick</td>
            <td>Varna</td>
        </tr>
        <tr>
            <td>Didi</td>
            <td>Ruse</td>
        </tr>
        <tr>
            <td>Tedy</td>
            <td>Varna</td>
        </tr>
    </table>
    <button onclick="color()">Colorize</button>
</body>
<script type="text/javascript">
    function color(){
        var table = document.getElementsByTagName("td");
        table[2].style.backgroundColor = "yellow";
        table[3].style.backgroundColor = "yellow";
        table[6].style.backgroundColor = "yellow";
        table[7].style.backgroundColor = "yellow";
    }
</script>

```

## 6. Дараах формыг хийж ажиллуул

Insert item

Name:	<input type="text"/>
Price:	<input type="text"/>

Item	Price
Apple	100
Milk	200
<b>Total</b>	<b>300</b>

```

Name:<input type="text" name="name" id="item"><br>
Price:<input type="number" name="price" id="price"><br>
</form><br><br>

<table id="myTable" border="1">
<tr>
    <th>Item</th>
    <th>Price</th>
</tr>
<tr>
    <th>Total</th>
    <th id="sum"></th>
</tr>

</table>
<br>

<button type="button" onclick="myFunction()">Insert</button>

<script>
function myFunction() {
    var first = document.getElementById("item").value;
    var second = document.getElementById("price").value;

    var table = document.getElementById("myTable");
    var row = table.insertRow(1);
    var cell1 = row.insertCell(0);
    var cell2 = row.insertCell(1);
    cell1.innerHTML = first;
    cell2.innerHTML = second;
    var sum = 0;
    sum = parseInt(sum);
    sum = second;

    document.getElementById("sum").innerHTML += sum;
}

```

Insert item

Name:	<input type="text" value="banana"/>
Price:	<input type="text" value="100"/>

Item	Price
banana	100
apple	200
Total	200100
